

HEXAGON MODULES

**Ref. 0294****Ref. 0368****Ref. 0364**

- ❑ Specially designed for children from 18 months to 6 years
- ❑ These modules are more stable than cylinders, helping develop balance and reduce fear of height
- ❑ Ideal for obstacle courses and performing forward rotations
- ❑ Can be easily integrated into a Baby-gym circuit
- ❑ Can be used alone or in association with the wooden range
