

VARIO' TUNNEL

- ❑ Specially designed with a view to developing motor skills in young children
- ❑ Ideal to discover the assault course
- ❑ A tunnel with 4 parts, endlessly adjustable
- ❑ With this module you can easily make tunnels, a plinth, a high elasticity plinth, various courses or small parallel bars
- ❑ Can be combined with various elements of the Educ'Gym range and the Vario range

TECHNICAL FEATURES

- ❑ Polyurethane foam of different densities
- ❑ Velcro system

Comprises:

- ❑ 1 concave module
 - Dim. = 150 x 40 x 40 cm (Lxwxh)
 - Foam density = 30 Kg
- ❑ 1 convex module
 - Dim. = 150 x 40 x 35 cm (Lxwxh)
 - Foam density = 30 Kg
- ❑ 2 side walls from dynamic foam
 - Dim. = 150 x 10 x 60 cm (Lxwxh)
 - Foam density = 28 Kg
