

VARIO' BLOCK

- ❑ Specially designed with a view to developing motor skills in young children
- ❑ Variable-geometry block makes either: a box, a sloped plan, a roof, a rocking bridge or hexagon etc
- ❑ Several gymnastics elements can be realized according to the positioning of the modules, particularly front and back rotations thanks to the sloped plan
- ❑ Allows to explore sensations of balance in either a standing or lying position
- ❑ Can be combined with various elements of the Educ'Gym range and the Vario range

TECHNICAL FEATURES

- ❑ Made from 25 Kg density polyurethane foam
- ❑ Velcro system
- ❑ Dim. = 150 x 60 x 60 cm (Lxwxh)
- ❑ Comprises:
 - 2 sloped plans : 75 x 60 x 30 cm (Lxwxh)
 - 1 box shaped module : 150 x 60 x 60/30 cm (Lxwxh)

Endless number of use thanks to the velcro system
